Why present?

- a space to develop and fine-tune your research
- receive quality feedback from colleagues
- sharing knowledge and experience
- networking
- deepening institutional cooperation and recruiting new partners
- visiting interesting sites and exhibitions

Co-ordinating institution (Trnava University)

- ensures the organization of the programme, including final report
- is responsible for the scientific standards of activities
- provide transport to the sites, entrance fees and guided tours

Sending institution

- provides grant for short-term student mobility (5 days)
- recognizes the program in the final evaluation of the selected course at home (the course is specified in the Learning agreement and has at least 3 ECTS credits).

Participant

- covers travel and accomodation costs (from the mobility grant)
- take an active part in the discussion
